Minor Eye Problems?

If you have a recent problem with your eyes such as sore eyes, red eyes or visual disturbance, you can be assessed and treated by the Minor Eye Conditions (MEC) Service.

Free NHS appointments available at participating opticians.

This leaflet will tell you more about the service, including; how to book an appointment and who is eligible for this service.

Leaflet developed by NHS Wakefield CCG and Wakefield Public Health, in conjunction with the Wakefield Local Optical Committee and The Mid Yorkshire Hospitals NHS Trust

What is the Minor Eye Conditions Service?

This is a **free** NHS service available from an appropriately trained and qualified optician in your local area.

Minor eye conditions that can be seen under the service include:

- Red eye or eyelids
 - Dry eye or gritty and uncomfortable eye
 - Irritation and inflammation of the eye
 - Significant recent sticky discharge from the eye or watery eye
 - Recently occurring flashes or floaters
 - In-growing eyelashes
 - Foreign body in the eye (something in the eye)
 - Recent and sudden loss of vision
-
- **PLEASE NOTE THE MINOR EYE CONDITIONS SERVICE DOES NOT INCLUDE A SIGHTTEST OR LONG STANDING EYE PROBLEMS**

If you have a major eye condition that is being regularly monitored by your optician or hospital eye service, this will not be covered by this service. For example; cataracts, diabetic retinopathy or glaucoma.

Where should I go?

Registered optometry practices (high street opticians) offering the services are listed on the back of this leaflet. An appointment will normally be required, so please telephone first.

Appointments are available during normal working hours and some opticians offer appointment at weekends. Not all opticians have an optician available every day, but if they don't, they will be able to find you an alternative appointment nearby.

Who is this service for?

The service is available to **adults and children who are registered with a GP practice** in the Wakefield district. Children under 16 years of age must be accompanied at their appointment by an adult.

How do I book an appointment with the service?

There is no need to make a GP appointment or attend A&E for minor eye conditions. Instead, you can call one of the opticians on the back of this leaflet or visit the NHS Wakefield Clinical Commissioning Group's website at: www.wakefieldccg.nhs.uk or the Wakefield Public Health website at: www.wakefield.gov.uk/health-care-and-advice/public-health for information.

The optician will ask you some questions about your symptoms in order to ensure you meet the criteria and assess how quickly you need to be seen by the service. You will normally be seen within 48 hours (Monday to Saturday) of contacting the opticians.

You can also walk in without an appointment; however you may be required to wait for an available appointment or be given an appointment for another time. This may be because there are no available appointments that day or because the optician may need to put drops in your eyes.

On the day of the appointment

Please take your glasses and a list of current medication with you to the appointment. The optician may put drops in your eyes to enlarge your pupils in order to get a better view of the inside of your eyes. You should not drive until the effects of these drops have worn off, which may take a few hours.

If your condition is more serious, the optician will book you an urgent appointment at a hospital eye clinic. If you need a routine appointment with a hospital, the optician will organise this for you. You may also be advised to make an appointment with your GP if your eye condition is in relation to your general health.
